

SUBARU
ALL-WHEEL DRIVE

CROSSTREK

SUBARU CROSSTREK

DELIVERS IN ALL CONDITIONS*

New Zealand. A country where the weather changes as quickly as the landscape. Where native forests surround untouched lakes and snow-capped mountains meet long, rugged beaches. But it's no secret, that to get to these untouched spots you need the power and capability of All-Wheel Drive technology, which comes standard across the whole Subaru range. Giving you the confidence to go anywhere, in almost all conditions.*

To experience Subaru's All-Wheel Drive for yourself, book a test drive at one of our showrooms today.

*On the very rare occasion that you wish to take your Subaru for a swim, we strongly advise against deep sea driving. While our All-Wheel Drive technology has been rigorously tested, it has not been designed to navigate apocalyptic wastelands, drive through alternative dimensions, or over slip 'n' slides.

WHAT MAKES IT A SUBARU

On New Zealand roads we expect the unexpected. Whether that's unexpected road surfaces, conditions, or the odd wayward sheep, every Subaru comes fully-equipped to handle it.

SCAN TO DISCOVER WHAT'S UNIQUE ABOUT SUBARU

SYMMETRICAL ALL-WHEEL DRIVE

Given the roads Kiwi drivers have to contend with, our Symmetrical All-Wheel Drive system is an indispensable feature for getting around in NZ.

The way it works is simple – as soon as your Subaru senses a loss of traction in any of the four wheels, it instantly transfers that power to the other wheels that still have grip, giving them the extra oomph to get you out of trouble. It happens so seamlessly you probably won't even notice it, you'll just feel that famous Subaru handling.

Delivering confidence & control

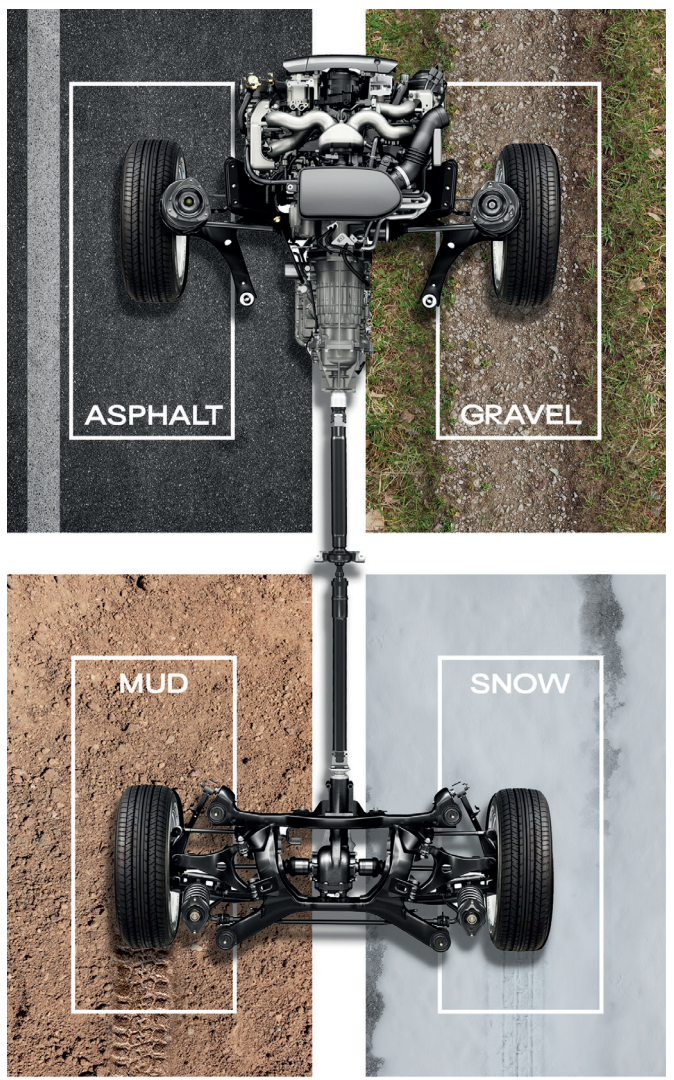

Most cars only distribute power to two wheels, while Subaru's All-Wheel Drive system delivers targeted power to all four wheels simultaneously, giving you twice the grip capacity.

Standard on all NZ new Subarus

We believe in All-Wheel Drive so much that it comes standard in every new Subaru sold through our Authorised Subaru Centres. The way we see it, with NZ's diverse conditions, anything less is sub-standard.

Engineered for perfect balance

Since 1973 our engineers have been perfecting a platform that is symmetrical, creating an innate sense of balance, with a lower centre of gravity, for greater stability around corners and a smoother power delivery.

EYESIGHT® TECHNOLOGY

Eyesight® is Subaru's award-winning system of cameras and clever computing that acts as your second pair of eyes. It provides a host of safety and driver convenience features.

It uses three-dimensional images captured by cameras mounted at the top of the windscreen to monitor the road, and other road users ahead of you. It can do everything from recognising and preventing potentially dangerous situations to making heavy traffic a bit less tedious.

EyeSight Features:

- Pre-collision brake, brake assist and throttle management
- Adaptive cruise control
- Lead vehicle start alert
- Lane sway and lane departure warning
- Lane keep assist
- Autonomous emergency steering
- Speed sign recognition
- Lane centering function

BOXER ENGINE

Every hybrid and petrol Subaru has another hidden advantage over ordinary cars: its distinctive 'flat' Boxer engine. Horizontally opposed pistons are balanced with the punching action of two boxers, hence the name, and allow for a lower profile engine. When combined with the AWD platform, every Subaru handles like a dream. And the Boxer engine benefits the driver in other ways too.

Lower centre of gravity. More control.

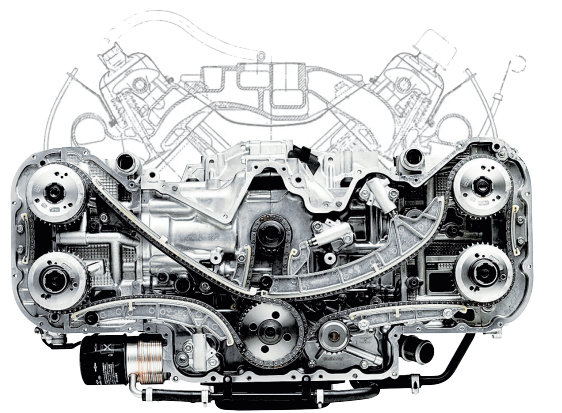

Designed to sit horizontally in the engine bay, the iconic Boxer gives you a low centre of gravity for better handling, balance, and a smoother drive.

More power. Less vibration.

The evenly balanced forces of the engine produce more torque with less vibration. And with less vibration, comes less noise, and greater cabin comfort.

Flatter engine layout. Higher level of safety.

Perhaps most importantly of all, if a severe frontal collision occurs, due to its low position, the engine will slide below the cabin – not into it.

X-MODE

Activate this and your Subaru Crosstrek knows you mean business. It increases driving performance by reducing potential wheel spin on super slippery surfaces, steep inclines, and extra rough roads. When navigating steep declines, X-Mode also engages hill descent control. And for models with Dual X-Mode, the deep SNOW/MUD option generates maximum grip more quickly, making it easier to move the vehicle in deep snow or mud.

SUBARU INTELLIGENT DRIVE

SI-DRIVE regulates key engine functions which enables the driver to choose from two distinctive driving modes on selected models: **Intelligent (I)** Mode for everyday city driving and optimised fuel efficiency, or **Sport (S)** Mode for highway driving, enhanced acceleration and consistent power delivery.

DRIVER MONITORING SYSTEM*

The Driver Monitoring System adds further convenience and safety to every drive. Using a driver facing camera and facial recognition technology, it can look out for driver fatigue.

Your Subaru is built to deliver safety. Not only does Crosstrek come with All-Wheel Drive technology, it has the ability to detect when you're starting to lose focus. Crosstrek has been programmed to interpret facial expressions and signal recommended actions to prioritise your safety.

CONNECTIVITY

With a spectacular 11.6" tablet-like touchscreen, the infotainment system comes complete with Wireless Apple CarPlay™ and AndroidAuto™ making device connectivity seamless.

Wandering gaze warning – warns both passengers and the driver through a visual and audio alert if the driver continues to look away from the road ahead.

Driver drowsiness warning – can detect if the driver is dozing or getting drowsy and offer a warning. (Drowsiness is recognised by calculating the time ratio the driver's eyes are closed.)

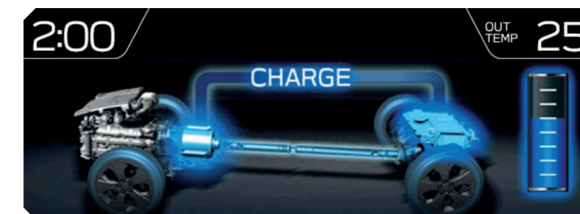

e-BOXER HYBRID

Our Hybrid platform has been engineered to enhance everything which makes it a Subaru – our legendary All-Wheel Drive, and the Boxer engine's low centre of gravity, all help you take on any terrain, while the Hybrid engine gives you greater fuel efficiency and treads more lightly on this beautiful place we call home.

SELF-CHARGING

As a self-charging hybrid the e-Boxer collects energy in its compact lithium-ion battery whenever you brake or decelerate. This in turn powers its electric motor, offering greater fuel efficiency.

ENHANCED DRIVER MODES

With different drive modes like; Electric Only (for an efficient ride), or Motor Assist (for when you need some low-end pep), the electric energy is used to enhance the car to automatically switch modes depending on the terrain it's handling.

SUBARU LINEARTRONIC TRANSMISSION (WITH MANUAL MODE)

Unlike a conventional automatic transmission, which uses fixed gear ratios, we created the world's first longitudinally mounted continuously variable transmission system to complement our unique Symmetrical All-Wheel Drive system. Result? Greater performance and efficiency, with a smoother gear change and optimum gear ratio at every moment in time. (Or flick it to 'manual mode' and use paddles on the steering column to change through preselected gear ratios.)

SMART KEY AND PUSH BUTTON START

For ultimate convenience, every Crosstrek comes with a Smart Key that enables Push Button Start and keyless entry, meaning your key can remain in your bag or pocket when you need to lock or unlock your car.

SUBARU SAFETY

For us, safety isn't optional, and it shouldn't be for you either. That's why we engineer every Subaru with the intention of achieving the highest safety rating possible. Crosstrek is yet to be tested at the time of printing.

SUBARU VISION ASSIST

With driver warnings, extra camera angles, and clever features, Subaru Vision Assist gives you extra confidence whether it's changing lanes, or parking in a tight spot. It features:

- Blind spot monitor
- Lane change assist
- Rear cross traffic alert
- Adaptive driving beam*
- Side view monitor*
- Front view monitor*
- Reverse automatic braking

*Some features are only available on certain models.

WHAT'S UNIQUE ABOUT
SUBARU CROSSTREK

SUBARU
CROSSTREK
AWD 2.0

**STANDARD
FEATURES INCLUDE:**

- ✦ 2.0L Direct Injection Engine
- ✦ Symmetrical All-Wheel Drive
- ✦ 8-speed Subaru Lineartronic Transmission (with paddle shift)
- ✦ X-Mode with Hill Descent Function
- ✦ EyeSight® clever crash avoidance technology: pre-collision braking, driver alerts, adaptive cruise control and lane keep assist
- ✦ Electronic Park Brake
- ✦ Auto Stop Start
- ✦ Auto Vehicle Hold
- ✦ 9 Airbags
- ✦ Tyre Pressure Monitoring System
- ✦ 17" Alloy Wheels – Black Finish
- ✦ Auto Lights and Wipers
- ✦ Daytime Running Lights
- ✦ Smart Key & Push Button Start
- ✦ 11.6" Tablet-Like Centre Information Display
- ✦ Wireless Apple CarPlay™ & Android Auto™
- ✦ Wireless Smartphone Charging
- ✦ Bluetooth and Voice Recognition
- ✦ USB Charge Port for Rear Passenger (x2)
- ✦ 4.2" LCD Multi-Function Display
- ✦ Premium Cloth Upholstery
- ✦ Black Roof Rails
- ✦ Rear Reversing Camera
- ✦ Reverse Auto Braking
- ✦ Driver Monitoring System with Facial Recognition
- ✦ Rain Sensing Front Wipers
- ✦ 220mm Ground Clearance
- ✦ Blind Spot Monitor
- ✦ Lane Change Assist
- ✦ Rear Cross Traffic Alert
- ✦ Front Side Radar
- ✦ Dusk Sensing Headlights with Auto Off
- ✦ 60/40 Split Rear Seats
- ✦ SI Drive (2 Modes)

SUBARU
CROSSTREK
AWD 2.0 PREMIUM

**ADDS TO THE FEATURES OF
SUBARU CROSSTREK AWD 2.0:**

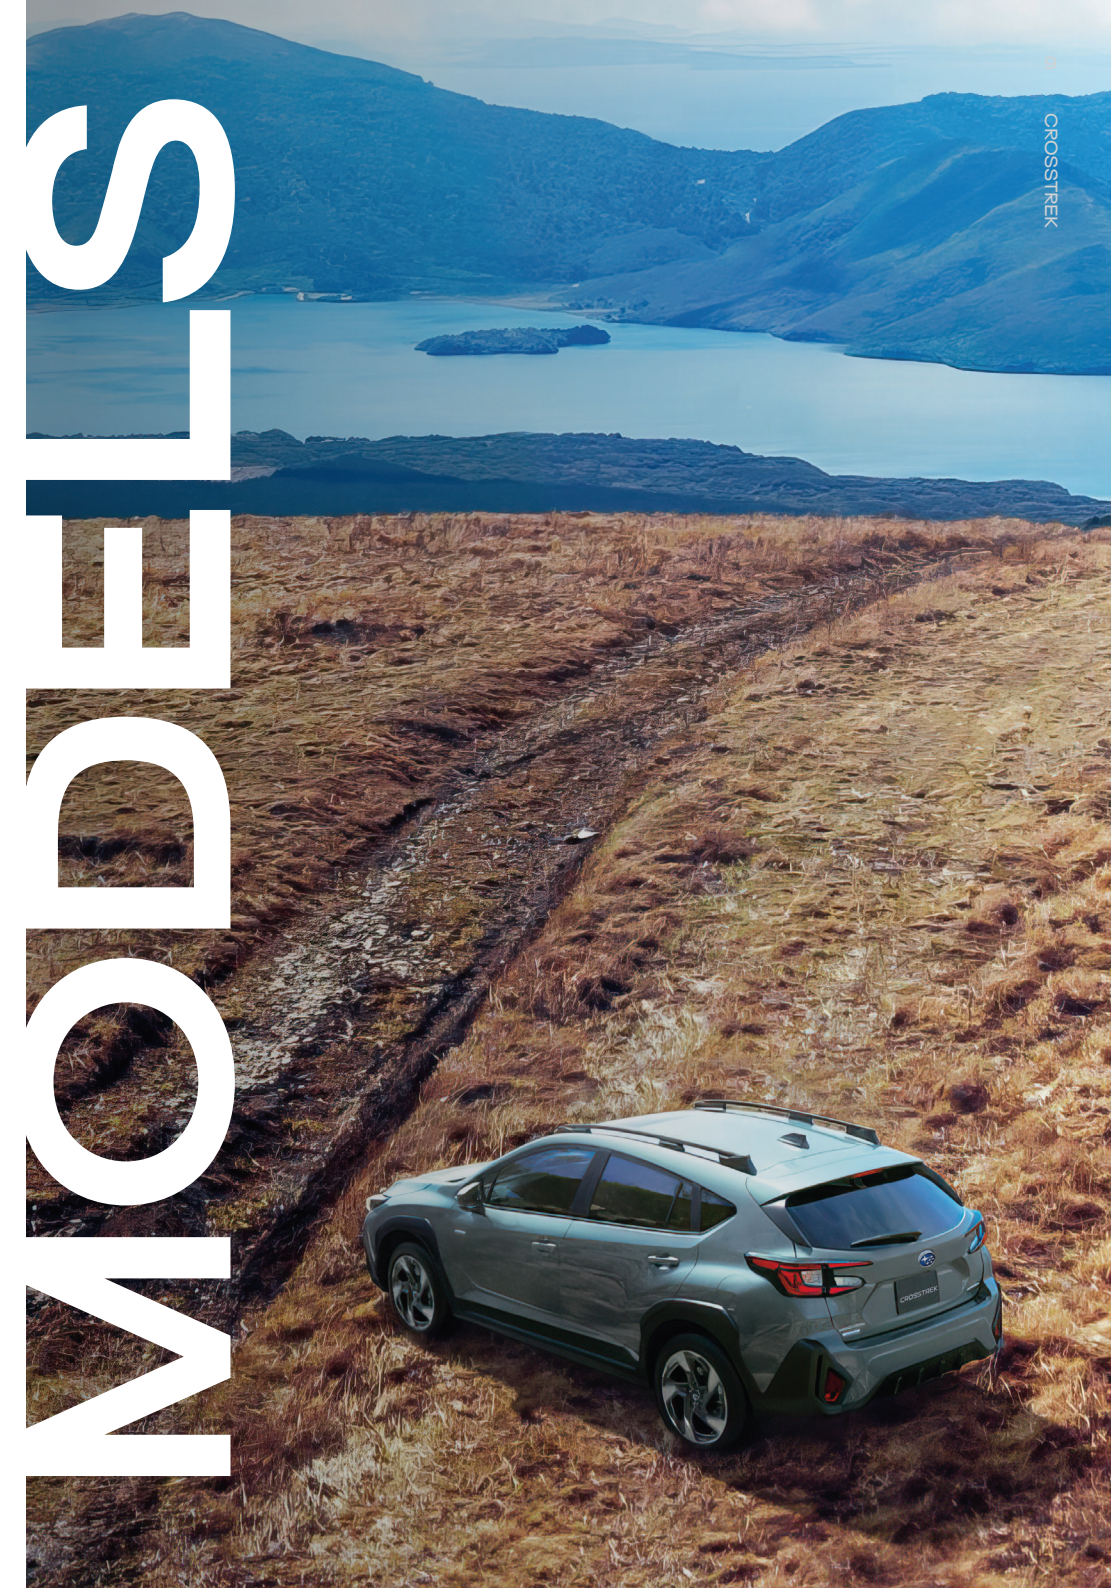

- ✦ Satellite Navigation
- ✦ Electric Sunroof
- ✦ 18" Alloy Wheels – Gloss Finish
- ✦ Heated Seats – Driver and Front Passenger
- ✦ 8-way Power Seat and Electric Lumbar Support – Driver
- ✦ Leather Upholstery
- ✦ Leather Steering Wheel and Gear Shift
- ✦ Panoramic 360-Degree View Monitor
- ✦ Sports Pedals
- ✦ Digital Speedometer
- ✦ Roof Rails – Dark Grey
- ✦ 360 Degree View Monitor
- ✦ Front View Monitor
- ✦ High Beam Assist
- ✦ Air Conditioning Dual Zone
- ✦ Self Levelling Headlights
- ✦ Steering Responsive Headlights

SUBARU
CROSSTREK
AWD HYBRID PREMIUM

**STANDARD
FEATURES INCLUDE:**

- ✦ 2.0L Direct injection e-Boxer engine with a 12.3kW electric motor
- ✦ Symmetrical All-Wheel Drive
- ✦ 7-speed Subaru Lineartronic Transmission (with paddle shift)
- ✦ X-Mode with Hill Descent Function
- ✦ EyeSight® clever crash avoidance technology: pre collision braking, driver alerts, adaptive cruise control and lane keep assist
