The EVolution of all-terrain performance

Thought you'd seen everything an EV could do? Think again. This one kicks open a whole new frontier. Introducing the all-new, all-electric Subaru Trailseeker.

Blending advanced electric intelligence with elevated performance, presence and the all-terrain capability Subaru is famous for. This is a Sport Electric Vehicle (SEV) built for those who refuse to stop at the pavement's edge and demand more from every journey. Electrified adventure doesn't quite cover it. This SEV redefines what an EV can do and reshapes the meaning of luxury and adventure in the electric age.

Delivering an exhilarating 280 kW and a 0–100 km/h time of just 4.5 seconds¹, Subaru Trailseeker offers instant, confident acceleration on demand. At its core is a 74.7 kWh CATL battery, delivering a driving range of up to 533km², with 150 kW DC fast-charging capability that takes you from 10–80% in just 30 minutes³.

Paired with Subaru's Symmetrical All-Wheel Drive, X-Mode and 211mm ground clearance⁴, whether you're merging confidently onto the highway or powering down a dusty trail.

Designed to support active lifestyles, it delivers performance, intelligent innovation, and enduring high riding capability for life's boldest pursuits.

Introducing the all-new, all-electric Subaru Trailseeker. The EVolution of all-terrain performance.

Image indicative only. | 1. Acceleration test performed under controlled conditions. 2. Figure is based on WLTP (Worldwide Harmonised Light Vehicle Test Procedure) combined average city and highway cycle test under standardised testing conditions. Range and energy consumption figures are based on laboratory test results only and are provided for comparison purposes. Real world results may vary based on individual driving circumstances, including traffic conditions, driving style, vehicle load, battery age and condition, use of climate control and other electrical systems, vehicle configuration, and environmental conditions. Quoted figures may not reflect real world range or energy consumption. 3. Charging times will vary depending on a variety of factors including, but not limited to, the output of the charger being used, starting battery charge, charging equipment, ambient temperature, battery state as well as the age of the battery at point of use. As a result of these factors, charging times may therefore vary significantly. Before charging your Subaru at home, consult with a licensed electrician to ensure your home electrical system can support the charging of your vehicle. 4. Ground clearance at kerb weight.

The Subaru Trailseeker range at a glance

The new all-electric Subaru Trailseeker range boasts distinctive features and technology making it an irresistible blend of attitude and unmatched capability. See the pages that follow for a full list of specifications.

Standard across the range

- + Symmetrical All-Wheel Drive mounted to the all-new e-Subaru Global Platform
- + Dual electric motors producing 280kW of power
- + Up to 150kW DC fast charge input
- + 2kW (8 Amp) AC charging cable with 10 Amp wall plug
- + X-Mode 2 mode including new Grip Control function with Multi-Terrain Monitor
- + 211mm of ground clearance¹

SUBARU TRAILSEEKER AWD

1. Ground clearance at kerb weight. 2. Compatible Qi enabled and compliant device required. 3. Figure is based on WLTP (Worldwide Harmonised Light Vehicle Test Procedure) combined average city and highway cycle test under standardised testing conditions. Range and energy consumption figures are based on laboratory test results only and are provided for comparison purposes. Real world results may vary based on individual driving circumstances, including traffic conditions, driving style, vehicle load, battery age and condition, use of climate control and other electrical systems, vehicle configuration, and environmental conditions. Quoted figures may not reflect real world range or energy consumption.

Standard across the range

- + Subaru Safety Sense featuring:
 - Pre-Collision System, Dynamic Radar Cruise Control, Emergency Driving Stop System¹, Emergency Steering Assist, Lane Departure Alert, Lane Tracing Assist, Low-Speed Acceleration Suppression and Road Sign Assist.
- + Driver Monitor System² featuring
 - Distraction Warning and Drowsiness Warning
- + Vision assist tech including:
 - Adaptive High Beam System, Blind Spot Monitor, Multi-Terrain Monitor, Panoramic 360 Degree View Monitor, Parking Support Brake, Rear Cross Traffic Alert,
- Rear Parking Sensors and Safe Exit Assist
- + Digital rear view mirror
- + A powered driver seat with electric lumbar support
- + Heated front and rear outboard seats
- + Heated steering wheel
- + 14" touchscreen infotainment system
- + 7" Digital instrumentation
- + Dusk-sensing self-levelling LED headlights with auto off

SUBARU TRAILSEEKER AWD TOURING

Image indicative only.

1. Emergency Driving Stop System (EDSS) operates only when Lane Tracing Assist is operating. Refer to Owner's Manual for full details. 2. The Driver Monitoring System (DMS) features for Trailseeker are distraction warning and drowsiness warning. DMS performance and capability is dependent on environmental and technical conditions. Refer to Owner's Manual for full details. 3. The Advanced Park Assist system is designed to support the driver but has limitations in recognition accuracy and control performance. It is the driver's responsibility to remain aware of the vehicle's surroundings, including pedestrians and other vehicles, and drive safely. For more information, please consult the Owner's Manual. 4. Harman Kardon* is a registered trademark of HARMAN International Industries, Incorporated. Available on Subaru Trailseeker AWD Touring only. 5. Figure is based on WLTP (Worldwide Harmonised Light Vehicle Test Procedure) combined average city and highway cycle test under standardised testing conditions. Range and energy consumption figures are based on laboratory test results only and are provided for comparison purposes. Real world results may vary based on individual driving circumstances, including traffic conditions, driving style, vehicle load, battery age and condition, use of climate control and other electrical systems, vehicle configuration, and environmental conditions. Quoted figures may not reflect real world range or energy consumption.

All the trimmings

The language of the all-electric Subaru Trailseeker is all luxury, with exterior colours as bold as its design spirit.

EXTERIOR COLOUR ¹	Trailseeker AWD	Trailseeker AWD Touring
A - Crystal White Pearl	•	•
B - Daybreak Blue Pearl	•	•
C - Sapphire Blue Pearl	•	•
D - Brilliant Bronze Metallic	•	•
E - Magnetite Grey Metallic	•	•
F - Crystal Black Silica	•	•

1. Paint colours are representative only and subject to variation due to the printing process or screen settings.

Elegantly understated, the interior of Subaru Trailseeker reflects its contemporary aesthetic. Black Synthetic available for the Trailseeker AWD variant, whilst the Trailseeker AWD Touring variant comes with the Leather Accent¹ upholstery in blue/black.

SEAT TRIM COLOUR	Trailseeker AWD	Trailseeker AWD Touring
A - Synthetic Leather - black	•	
B - Leather Accented ¹ - blue/black		•

1. Leather-accented upholstery includes leather and non-leather materials.
